

# Mrs. Delamater & Mrs. Krager

♥ Our First Grade supply list is created so all students can actively participate in all activities.

## ♥ OUR SUPPLY LIST:

- 1 flip top reusable water bottle (less spills with flip top)
- 6 glue sticks (to start; will need replenishing throughout the year; they go fast!)
- 2 packs of crayons (24 count **max**)
- 2 yellow highlighters
- 1 large eraser (*no eraser caps please*)
- 1 plastic pencil/supply box (for our desks; snap shut; NOT zippered please)
- 1 pair of scissors (*blunt tip*)
- 2 sturdy folders (at least one folder should be durable and plastic)  
NO TRAPPER KEEPER FOLDERS please. Students cannot easily file papers in those.
- **Headphones:** These are used often for: listening to stories on the iPad, reading and math testing, listening to music, and occasionally to block out sound to aide in concentration. **Earbuds don't seem to work well in the First Grade classroom.**

Your donations to our classroom wish list help any students who have lost items or need replenishing, or for whole group projects and organizing.

- ☆ Ziploc bags (gallon or quart size)
- ☆ glue sticks
- ☆ boxes of crayons
- ☆ boxes of "Colors of the World" Crayola crayons
- ☆ pre-packaged snacks for classroom bin
- ☆ extra student scissors for classroom bin
- ☆ **black** dry erase markers
- ☆ green "frog" tape (like painter's tape)
- ☆ masking tape
- ☆ small bottles of water for classroom bin
- ☆ Play Doh

**Please do not send in personal pencil sharpeners, markers, or colored pencils. Thank you!** 😊

# Summer To-Do List

Enjoy books as much as you can!

- 😊 Have your grown-ups read books to you! Have fun listening to the stories. I wonder what your favorite book will be?

Math is important, too!

- 😊 Subitizing! What a fancy word!! **What is subitizing?** Simply put, subitizing is the ability to recognize a small group of objects without counting. It is a fundamental skill in the development of number sense. You can use dice and dominoes to practice this fun skill.
- 😊 Practice counting objects around you. How high can you count? In first grade we will count and write numbers up to 120!

Other important summer jobs:

- 😊 do some puzzles (real, hands-on puzzles)
- 😊 play some games (including rolling the dice, moving pieces, etc.)
- 😊 draw or color pictures while laying on your tummy
- 😊 instead of more screen time (iPads, computers, TV, phones, game systems, etc.) **run, jump, climb, pretend, laugh, chat, and have fun!**
